Good morning Jeff:

I wanted to let you know that EPA is planning a visit to the Beechnut facility in Canajoharie, NY. I am coordinating the efforts with the New York State Department of Labor, Canajoharie Police Department, Public Works and the Mayor's Office. We are tentatively scheduled for the week of February 22, 2016 to enter and survey the facility. Let me know if you have concerns. In addition, if you could sign the access agreement and forward it to me, I would greatly appreciate it.

Thank you,

Mr. Keith Glenn

Jeff:

Thank you for clarifying your email address. As part of our dialog last month you indicated there were 2 asbestos surveys conducted at the Beechnut facility in Canajoharie, NY; a property currently owned by you. If you could share those documents with me, I would appreciate it.

Today we discussed access to the Beechnut facility and you voluntarily granted entry and survey consent to EPA. Attached is a access agreement formalizing that consent. If you can sign and send that back to me, I would appreciate it. Should you have any questions regarding the document, let me know and we can review it. I would like to visit the property within the next month and potentially collect samples that may indicate the presence of asbestos.

Thank you for your time,

Mr. Keith Glenn

Jeff:

Thank you for taking the time to discuss the Beech-Nut facility located in Canajoharie, NY with me. EPA is interested in reviewing the asbestos surveys that have been conducted on the property. When you have an opportunity, if you could share them with me I would greatly appreciate it. As indicated, EPA may wish to visit the property and inspect the interior of the buildings for potentially asbestos containing material. We can discuss that following the new year.

Thank you for your assistance and have a good holiday season,

Mr. Keith Glenn
